

TECHNICAL WRITER / INFORMATION ENGINEER, 2010, GÖTEBORG

Do you see it as a natural and exciting challenge to describe complex technical structures in a distinct and pedagogic way?

Do you have the ability to challenge content and structure of technical information for improved pedagogy and understanding?

Do you have a feel for language style and information flow?

If developing technical information for cutting-edge telecom products appeals to you, you can become part of diverse and motivated teams working in an intense product development environment. We offer great opportunities in the telecom sector, where we work in an international environment with Swedish and European customers acting in the global market. We also offer opportunities to acquire international experiences.

REQUIREMENTS AND EXPERIENCES | WE OFFER

Qualifications

- Technical background: MSc or BSc in computer science, electrical engineering, or similar
- Excellent English skills, both written and spoken

Preferred additional skills, personal traits and experience

- Good ability in multi-tasking and independent problem solving
- Analytical, thorough, communicative, and result oriented
- Educational background in technical information and documentation
- Work experience in the telecom sector
- Work experience as technical writer
