JUNIOR TECHNICAL WRITER / INFORMATION ENGINEER,

Do you see it as a natural and exciting challenge to describe complex technical structures in a distinct and pedagogic way?

Do you have the ability to challenge content and structure of technical information for improved pedagogy and understanding?

Do you have a feel for language style and information flow?

If developing technical information for cutting-edge telecom products appeals to you, you can become part of diverse and motivated teams working in an intense product development environment.

This position is within complex products with high demands of the information and therefore requires experience in technical writing.

REQUIREMENTS AND EXPERIENCES | WE OFFER

Basic Qualifications

- Technical background: MSc, BSc or similar
- Excellent English skills, both written and spoken
- Work experience in technical writing

Preferred additional skills, personal traits and experience

- Good ability in multi-tasking and independent problem solving
- Analytical, thorough, communicative, and result oriented
- MSc or BSc in computer science, electrical engineering, or similar
- Educational background in technical information and documentation
- Technical education on university level and 2 or more years of experience in the technical
